

# Robert Sassack

## Software Engineer

[rsassack25@gmail.com](mailto:rsassack25@gmail.com) – 248-701-8497 – [robsassack.com](https://robsassack.com) – [github.com/robsassack](https://github.com/robsassack)

---

## Summary

Software engineer with 3+ years delivering production applications across web, Salesforce, and Python environments. Experienced in automation, APIs, DevOps workflows, and shipping internal tools that improve efficiency. Daily user of AI-assisted tools, with hands-on experience building full-stack applications and AI-powered features using on-device and cloud LLMs.

## Technical Skills

**Languages:** TypeScript, JavaScript, Python, HTML / CSS, Java, Apex, SOQL

**Frameworks, Tools & Databases:** React, Next.js, Node.js, Docker, Git, Azure DevOps, PostgreSQL, Redis, MySQL, Salesforce Data Loader, ChatGPT / Codex, Claude / Claude Code, GitHub Copilot

**Platforms & Systems:** Linux / Unix, Windows, macOS, Azure Pipelines, TrueNAS, Salesforce

## Professional Experience

**Software Developer**, State of Michigan Apr. 2023 to Present

- Develop and maintain Salesforce applications using Apex, SOQL, and Lightning Web Components, shipping production features across multiple release cycles
- Build Python automation in Azure Pipelines for test coverage reporting, result retrieval, and release validation, removing manual handoffs from deployment workflows
- Complete 1,000+ targeted data corrections using SQL, SOQL, and Salesforce Data Loader while maintaining production data integrity
- Diagnose and resolve OpCon batch processing failures, restoring scheduled job execution and minimizing disruption to dependent business processes
- Coordinate code changes, releases, and production issue resolution using Git and Azure DevOps in an Agile workflow

**IT Technician Level II**, Mobile IT LLC Oct. 2021 to May 2022

- On-site and remote technical support for client staff across multiple sites

**Support Analyst**, Michigan State University Dec. 2020 to Jun. 2021

- Provided technical support to executive-level staff and utilized ticket routing

**Deskside Support Technician**, IBM Jun. 2019 to Apr. 2020

- Managed IT support tickets and resolved issues for end users remotely and in person with distributed IT teams

## Projects

**GapCheck:** Chrome extension for AI-powered resume/job-fit analysis -

<https://github.com/robsassack/gapcheck>

- Built a Manifest V3 extension using Chrome's built-in Gemini Nano (Prompt API) to compare a selected job posting against a resume entirely on-device
- Generates a match score, organizes requirements into Covered, Partial, and Gap sections

**Merch Table:** Self-hosted digital music storefront - [merch-table.robsassack.com](https://merch-table.robsassack.com)

- Built with Next.js, TypeScript, PostgreSQL, and Redis, containerized with Docker Compose
- Includes Stripe webhook-driven order fulfillment and a background FFmpeg worker for transcoding uploaded audio into multiple formats

## Education

**Bachelor of Science, Western Michigan University**, Kalamazoo, MI

2020

Major: University Studies; Minor: General Business

Relevant Coursework: Computer Science I & II, Database Management Systems, Systems Programming Concepts
