

Robert Sassack

Software Engineer

rsassack25@gmail.com – 248-701-8497 – robsassack.com – github.com/robsassack

Summary

Software engineer with 3+ years delivering production applications across web, Salesforce, and Python environments. Experienced in automation, APIs, DevOps workflows, and shipping internal tools that improve efficiency. Daily user of AI-assisted development tools, with hands-on experience building full-stack projects using Next.js, TypeScript, and Docker.

Technical Skills

Languages: TypeScript, JavaScript, Python, HTML / CSS, Java, Apex, SOQL

Frameworks, Tools & Databases: React, Next.js, Node.js, Webpack, Git, Docker, Azure DevOps, OpCon, Salesforce Data Loader, MySQL

Platforms & Systems: Linux / Unix, Windows, macOS, Azure Pipelines, TrueNAS, Salesforce

AI Tools: ChatGPT / Codex, Claude / Claude Code, GitHub Copilot

Professional Experience

Software Developer, State of Michigan Apr. 2023 to Present

- Develop and maintain Salesforce applications using Apex, SOQL, and Lightning Web Components, delivering production features across multiple release cycles
- Build and maintain Python automation in Azure Pipelines for test coverage reporting, test result retrieval, and release validation tooling, reducing manual handoffs across deployment workflows
- Complete 1,000+ targeted data corrections using SQL, SOQL, and Salesforce Data Loader, maintaining data integrity across production systems
- Diagnose and resolve OpCon batch processing failures, restoring scheduled job execution and minimizing disruption to dependent business processes
- Coordinate code changes, release tasks, and production issue resolution using Git and Azure DevOps across Agile development workflows

Software Developer, Personal Projects May 2022 to Apr. 2023

- Built portfolio software projects while completing self-directed study in web development, version control, and modern software workflows

IT Technician Level II, Mobile IT LLC Oct. 2021 to May 2022

- On-site and remote technical support for client staff across multiple sites

Support Analyst, Michigan State University Dec. 2020 to Jun. 2021

- Provided technical support to executive-level staff and utilized ticket routing

Deskside Support Technician, IBM Jun. 2019 to Apr. 2020

- Managed IT support tickets and resolved issues for end users remotely and in person with distributed IT teams

Projects

Merch Table: Self-hosted digital music storefront built with Next.js, PostgreSQL, Redis, and Docker Compose. Includes Stripe webhook-driven fulfillment and a background FFmpeg transcode worker. merch-table.robsassack.com

Accordis: Real-time piano chord detection app built with Next.js, React, TypeScript, Tone.js, and MIDI and on-screen input support. Includes audio playback and a searchable chord and scale library. robsassack.github.io/accordis

Education

Bachelor of Science, Western Michigan University, Kalamazoo, MI
Coursework in Computer Science

2020
